

ON BEHALF OF THE TANZANIA SUPPORTED GROUP OF STUDENTS

TAHEA/ German Sisters -International Federation for Home Economics (IFHE) partnership and collaboration has a long history in supporting education to prevent school drop-out due to school fees and personal needs related to education in Mwanza region for the past 25 years, for the past 10 years 307 Secondary School Students were supported, the support was also extended to 2 College students who were desperate orphans who needed to pursue Clinical Medicine training.

Through this partnership, Students from Osnabrück University have been able to conduct their undergraduate studies in TAHEA Mwanza program sites where nutrition is promoted.

My name is Faraji Faustine Paragha having 30 Years old, a Bachelor Degree holder in Sociology, I live in Dodoma Tanzania. I received the education support for my Advanced Level Secondary School education from TAHEA Mwanza who are supported by German Sisters. The education support helped me to continue and complete my studies which paved a way to university level where I also received a government education loan. If it were not for the education support from German Sisters through TAHEA it couldn't be possible for me to have continued with studies as my family was not able to pay for my school fees and other education related costs after the death of my father.

Currently, I work with an international organization working to improve the wellbeing of children through improving the quality of Early Childhood Education, Health, Nutrition and Safety & Security. The work which supports my basic needs for my family and other relatives while serving the Tanzanian communities.

With all the above outcomes, my appreciation goes to you all who supported me to live my dream and reach the highest level of education. I believe there are lot of Tanzanian children who fail to achieve their dreams in life because of poverty, orphanage and lack of education support at different education levels. I wish and pray that this support continues and be able to reach more marginalized and poor children, I believe that education is a weapon for liberation. Thank you All.

My name is Modesta Masatu Mugini, I appreciate your support for my education from Ordinary Level through Advanced Level Secondary Education given through TAHEA Mwanza/ Germany Sisters Orphan Fund, I hold a Bachelor Degree in Education, as well as a Master Degree in Development Studies pursued at the University of Dar es Salaam. I currently work with Tanzania Police Force as a Trainer at Dar es Salaam Police Academy with the rank of Superintendent of Police, without your support, I do not know where I would be now, may God bless you All. Thank you.

My name is Alice Davis, I am a Banker, currently working with CRDB Bank, I was supported by German Sisters/ TAHEA Orphan Fund after I lost all my parents in 3 Months' time, my father died and my mother died 3 Months later. It was a sad story; may God rest them in peace.

The support through TAHEA Mwanza, enabled me to complete my Secondary School Ordinary and Advanced levels and was able to join the University College where I graduated with a Bachelor Degree in Business Administration, the qualification which enabled me to get an employment with the CRDB Bank in Kagera region, Tanzania. I am, because the orphan fund was there to help her, to show my appreciation, I volunteered to support 1 orphan child identified by TAHEA with school fees and scholastic materials. May God bless you All.

My name is Julieth Joseph Bhoke, I am 30 years old, I live in Mwanza-Tanzania. I was raised by a single Parent, after my father passed away.

I heard about TAHEA from a Government leader who worked with TAHEA in different projects, He directed me to TAHEA main office where I met with Mama Asia Kasuwi Kapande, I told her my story and she was very kind and generous, she told me TAHEA is going to pay for my school fees for four years, she also promised me that if I pass and get selected to join advanced level I will be supported with the same fund, I then completed my Secondary school education and was selected to join Advanced level education.

I completed my Advanced level of education and I was selected to join University of Dar es Salaam, and graduated with a Bachelor Degree in Early Childhood Education. After I graduated, I got a chance to work as volunteer at TAHEA MWANZA, I am now employed at TAHEA Mwanza as an ECD Program Assistant, my dreams came true because of your support.

My name is Moses Damas, I am 26 years old and I live in Mwanza-Tanzania.

I express my sincere gratitude for the exceptional financial support German Sisters have provided and continue to provide me in my studies undertaking Ordinary Diploma in Clinical Medicine at Nkinga Institute of Health Science.

It has always been my dream to become a doctor and help out people. After a few years struggle, I am now in my third year of studies and I will graduate in August, 2024, I cannot repay back in money but I hope to repay the Germany Sisters in kind, by serving my fellow Tanzanians by supporting health services as a Clinical Health Personnel.

Once again, thank you for what you are doing, your support has been instrumental in my studies and I am grateful to have an opportunity to be funded by Germany Sisters. Thank you.
