REF: EXPENDITURES AND SERVICES RECEIVED TO ME

My name is ALEX TABIA BAZIL from N KINGA INSTITUTE OF HEALTH SCIENCES. I am among the orphan children who received services and help from you. Thank you for your great help and services you have been providing to me. May our Almighty God, bless you abundantly.

The following are the benefits received to me at BWIRU BOYS from 2013-2016;

Improvement of my education and learning processes through payments of school fees at the right time without any delay. Improvement of my life through pocket money. The needs and requirements for the learning were available at the right time. For Examples; books, pens and school uniforms.

I got personal needs like healthy food and clothes through the pocket money. Also, the pocket money was used for the transport from school place to home place and for the other expenses during the holiday. Finally, I finished my ordinary secondary education level in 2016 at Bwiru Boys Secondary school which is in Mwanza, Tanzania.

In 2017, I joined Pius Msekwa High School which is in Ukerewe, Mwanza, Tanzania. Under the help and supervision of TAHEA Mwanza and you German Sisters.

The following are the benefits I got at high school level of education from (2017-2019).

The payments of school fees at the right time without delay, which made me to study without any stress. I also had pocket money which was given to me at the right time. The pocket money helped me to get personal needs like clothes, food, school uniforms, pens, instruments and requirements for science subjects especially laboratory experiments. Moreover, the pocket money helped me to get spectacles lens due to severe headache which I experienced when I was in form 5, in 2019.

Later in 2019 I joined Nkinga College to study Diploma in Clinical Medicine.

The benefits at Nkinga College are payments of college fees at the right time without any delay, this has helped me to study well without any fears and stresses. I also get the pocket money at the right time without delay to buy healthy food, clothes, college uniform, pens and other materials for learning like a Mobile phone which is important at the college for saving materials and communicating with students and teachers. The pocket money also helped me to get NHIF CARD (Healthy Insurance card) which is important for health services. The card helps me to get good treatment when I get sick. Also, the pocket money is helping for traveling from college to home place and when coming back to school.

Thank you, GERMANY SISTERS, TAHEA and my guardian MAMA ASIA KAPANDE, May God bless you and your works.

Yours Faithfully

Alex Bazil, Student at NIHS
